Warrant for Town Meeting.

MONDAY, March 21, 1921.

WORCESTER SS.

To any Constable of the Town of Douglas in the County of Worcester,

GREETING :

In the name of the Commonwealth of Massachusetts, you are hereby directed to notify the inhabitants of the town of Douglas, qualified to vote in elections and in town affairs, to meet in the town hall, East Douglas, in said Douglas, on Monday the twenty first day of March current, at 5.45 o'clock in the forenoon, then and there to act on the following articles :

ARTICLE 1. To elect a moderator, a town clerk, a town treasurer, six constables, a tax collector, an agent of Devise of Moses Wallis, one highway commissioner, a tree warden, an auditor, all for the term of one year, one selectman, one assessor, one overseer of the poor, one water commissioner, two members of the school committee, one trustee of the public library, one town cemetery commissioner, all for the term of three years and to vote Yes or No on the question "Shall licenses be granted for the sale of intoxicating liquors in this town for the ensuing year?"

ART. 2. To choose all other necessary town officers for the year ensuing.

ART. 3. To hear the reports of the town officers and outstanding committees and act thereon.

ART. 4. To raise by tax and appropriate such sums of money as may be necessary for support of poor, for schools, for debts and interest, for salary of superintendent of schools, for maintaining street lights, for highways and bridges, for exterminating browntail and gypsy moths, for salaries of town officers, and for all other expenses of the town for the ensuing year.

ART. 5. To see what compensation the town will pay each member of the Hose Company for their services for the ensuing year.

ART. 6. To see what disposition the town will make of the dog fund.

ART. 7. To see of what number the acting superintending school committee shall consist, and what their compensation shall be.

ART. 8. To see what sum the town will raise and appropriate for the relief of disabled soldiers and their families.

ART. 9. To see if the town will vote to oil the macadam roads, raise and appropriate money therefor.

ART. 10. To see what salary the town will pay its tax collector the ensuing year.

ART. 11. To see if the town will vote to build a new school-house in Douglas Center, and raise and appropriate money therefor.

ART. 12. To see if the town will authorize the treasurer, with the approval of the selectmen, to borrow money from time to time in anticipation of the revenue of the financial year beginning Jan. 1, 1921, and to issue a note or notes therefor, payable within one year, any debt or debts incurred under this vote to be paid from the revenue of said financial year.

ART. 13. To see if the town will vote to pay twenty-five dollars for the repair of town clock, so-called, to be paid from the contingent fund.

ART. 14. To see what sum of money the town will raise and appropriate for the Simon Fairfield public library.

ART. 15. To see if the town will vote the sum of one hundred and twenty-five dollars to Lambert B. Simmons, Camp 123, S. of V. for defraying expenses for Memorial Day.

ART. 16. To see if the town will vote to appropriate money for railing highways.

ART. 17. To see if the town will vote to appropriate a sum of money to be used for the repair of stone roads, under supervision of the selectmen, or act or do anything in relation to the same.

ART. 18. To see if the town will vote to instruct its board of selectmen, to petition the State Highway Commission under Chapter 155, of the General Acts of 1918 and to raise and appropriate the money required thereunder.

ART. 19. To see if the town will vote to raise and appropriate money for the care of Carter Square lot and the monument lot in East Douglas.

ART. 20. To see if the town will vote to instruct its selectmen to take the steps necessary to make Pleasant Street from Main Street to Depot Street, a one way street.

ART. 21. To see if the town will vote to confirm its vote whereby it voted to build a town hall on the Central Block site, or take any action in relation thereto.

ART. 22. To see if the town will vote to apply the money available from the Devise of Moses Wallis, to the erection of a Town Hall.

ART. 23. To see if the town will vote to borrow \$40,000.00 for the purpose of constructing a town hall, and issue bonds or notes therefor, said bonds or notes to be issued in compliance with the requirements of Chapter 719 of the Acts of 1913, and amendments thereof.

ART. 24. To see if the town will raise and appropriate \$200.00 to pay to the trustee for the County Aid to Agriculture, "Worcester County Farm Bureau" in accordance with the Provisions of, and for the purpose of, Chap. 273, acts of 1913, or pass any vote or votes in relation thereto.

ART. 25. To see if the town will choose a director in accordance with the provisions of Chapter 273, of the Acts of 1918, Section 1, to serve one year, or pass any vote or votes in relation thereto.

ART. 26. To see if the town will vote to accept the provisions of Chapter 94 of the General Laws, corresponding to Chapter 153 of the Acts of 1916, relating to the business of slaughtering.

ART. 27. To see if the town will vote to bond its Treasurer, Tax Collector and Agent of Moses Wallis Devise, in some bonding company, and raise and appropriate money therefor.

The polls may close at 2 o'clock.

You are directed to serve this warrant by posting attested copies thereof, at the Post Office in East Douglas, and at the Post Office in Douglas Center, ten days at least before the time of holding said meeting.

HEREOF FAIL NOT, and make due return of this warrant, with your doings thereon, to the Town Clerk at the time and place of meeting aforesaid.

Given under our hands this second day of March in the year one thousand nine hundred and twenty-one.

WILLIE R. WALLIS.

WALTER E. SCHUSTER.

W. L. CHURCH.

Selectmen of Douglas.

GILBERT W. ROWLEY,

Town Treasurer.

REPORT OF AUDITOR.

February 14, 1921.

To the Honorable Board of Selectmen,
Town of Douglas, Mass.

Gentlemen:

The books and accounts of the Town Treasurer, Agent of Devise of Moses Wallis, Tax Collector and Overseers of Poor, have been examined for the year ending December 31, 1920, and were found to be in excellent condition, and all funds fully accounted for.

The Treasurer's Cash was verified and is located as follows:—

On deposit in Massachusetts Trust Co.	\$968 24
On deposit in Blackstone National Bank	4 11
Total	<u>\$972 35</u>

AGENT OF DEVISE OF MOSES WALLIS

Received during the year:

Interest	\$2,225 95
Principal	300 00
	<u>\$2,525 95</u>

Paid out:

Care of Devise	\$225 00
Expenses	25
	<u>\$225 25</u>
Account of purchase of City of Boston bonds	405 68
	<u>630 93</u>

Net Receipts \$1,895 02

The securities have been examined and the total of the fund on December 31, 1920 is \$52,475.41, showing a net gain for the year of \$2,153.45.

The Tax Collector's account shows that the accounts have been very closely collected, the balance outstanding December 31, 1920 being \$1,791 42

DOUGLAS WATER CO.

Balance on hand December 31, 1919	\$837 72
Receipts during the year:	
Water Rates	\$2,795 75
Interest	9 21
House Connections	25 00
	<hr/>
	2,829 96
	<hr/>
	\$3,667 68
Payments:	
Labor	\$1,192 92
Power	1,084 50
Supplies, etc.	276 12
	<hr/>
	2,553 54
	<hr/>
Balance on hand December 31, 1920, deposited in Old Colony Trust Co.	\$1,114 14

Respectfully submitted,

WM. FRANKLIN HALL, C. P. A.

Accountant and Auditor.

Report of the Water Commissioners.

In July last, water bonds Nos. 13 and 14 were paid, and Nos. 15 and 16 will be paid the coming July. The total issue was 42 bonds of \$1000 each.

The sudden death of Eugene R. Correll, in January, leaves a vacancy hard to fill. Mr. Correll had been the faithful superintendent of the water system since it was first placed in service. He has always been a ready and willing helper to water takers in trouble, and his genial, pleasant calls will be sadly missed by us all.

WILLIE R. WALLIS,
CHARLES J. BATCHELLER,
HERBERT N. LOUGEE,

Water Commissioners.

SCHOOL CALENDAR.

HIGH SCHOOL.

Winter term—Dec. 27, 1920 to Mar. 25, 1921, 13 weeks.

Spring term—April 4, 1921 to June 24, 1921, 12 weeks.

Fall term—Sept. 6, 1921 to Dec. 23, 1921, 16 weeks.

Winter term—Jan. 3, 1922 to Mar. 31, 1922, 13 weeks.

Spring term—April 10, 1922 to June 23, 1922, 11 weeks.

Thanksgiving recess—Nov. 24 to Nov. 28.

Christmas vacation—Dec. 24 to Jan. 3.

Spring vacation—April 1 to April 10.

GRADES.

Winter term—Jan. 3, 1921 to Mar. 25, 1921, 12 weeks.

Spring term—April 4, 1921 to June 17, 1921, 11 weeks.

Fall term—Sept. 6, 1921 to Dec. 23, 1921, 16 weeks.

Winter term—Jan. 9, 1922 to Mar. 31, 1922, 12 weeks.

Spring term—April 10, 1922 to June 16, 1922, 10 weeks.

Thanksgiving recess—Nov. 24, to Nov. 28.

Christmas vacation—Dec. 24 to Jan. 9.

Spring vacation—April 1 to April 10.

NO SCHOOL SIGNAL.

Three blasts of the whistle at 7.45 A. M. indicate “no-school” for the morning session.

The same signal at 11.45 A. M. signifies “no school” for the afternoon session.

The “no-school” signal does not apply to the high school.

Report of the SCHOOL COMMITTEE.

The School Committee submit the following report for the year ending Dec. 31, 1920:

We have drawn orders on the Town Treasurer for \$2,131.15 more than was appropriated at the last March meeting, or \$24,131.15. An appropriation of \$22,000. was asked for a year ago, expecting that the State would provide \$6,000. of that amount.

The Town received nearly \$9,000. instead of \$6,000, and the Committee was enabled to spend \$24,131.15 on our schools without overdrawing.

Resignations made necessary the hiring of eight new teachers in September as follows:

High School, Miss Hazel Hill of Milford, Mass.

Fourth Grade, Miss Edith M. Pike of Groveton, N. H.

Fifth Grade, Miss Marjorie Arnold of Worthington, Mass.

Seventh and Eighth Grades, Miss Hazel Butler of Chester, N. H.

South Douglas, Miss Margaret M. Smith of Somerville, Mass.

West Douglas, Miss Edith Fairfield of East Douglas, Mass.

Supervisor of Music, Miss Helen P. Duguid of Penacook, N. H.

Supervisor of Drawing, Miss Esther Lundberg of Worcester, Mass.

The small two-room building at Douglas Center again is proving inadequate. There was not sufficient room for a number of State children who are boarding in the Center and the Committee was obliged to transport them to South Douglas. The expense of transporting these children and their tuition is paid by the State.

Electric lighting has been installed on the second floor of the brick building, also in the halls and basements.

In the repair account is included metal weather strips at the brick building and calking the windows. The roof of the West Douglas building was shingled. Other minor repairs were made outside, and inside the room was renovated.

The school rooms, one in the Town Hall, and one in the Fire Engine Hall were renovated. The heating and ventilating plant in the brick building demanded attention.

Details of the school year are covered by reports of the Superintendent, High School Principal, Supervisors of Music and Drawing, and School Physician.

GILBERT W. ROWLEY,

Chairman Superintending Committee.

FINANCIAL STATEMENT.

Total amount appropriated by Town.....	\$22,000 00	
Estimated to be received from State.....	6,000 00	
	<u>\$16,000 00</u>

FRANK H. BIRD,

Superintending Committee.

Report of the Superintendent of Schools

To the School Committee:

I herewith submit my sixth annual report of the schools of Douglas, it being the twentieth in the series of superintendents' reports of this district.

ATTENDANCE

The attendance has been very satisfactory during the past year, although children's diseases have been prevalent. The average per cent of 94.34 is above the average of the state. There were only 496 cases of tardiness in all the schools, which is certainly a very creditable showing. I do not think the schools of the town of Douglas have been in better condition since my connection with them for the past five years than at the present time, nor have we on the whole had better teachers. The pupils too show a spirit of willingness and effort that is seldom surpassed in any school system. We have an unusually fine class of pupils in the upper grades and high school especially, where much interest and effort are manifest. The introduction of manual training and domestic science has contributed in no small degree towards arousing this interest, which two years after the introduction of these subjects is as keen as ever. A hot water tank would add much to the value of the equipment in the domestic science course, and a wood-turning lathe run by electricity to the work in manual training.

A NEW SCHOOL BUILDING FOR DOUGLAS CENTER

Attention has previously been called in these reports to the need of better school accommodations at Douglas Center. Last fall there were sixty pupils in eight grades there in a building which could not have been intended originally for much over half this number. The heating, light and ventilation are all poor and the building and surroundings unattractive. Without going further into details, it seems to me the time has come for providing the children of this section of the town with up-to-date and adequate school accommodations. As I pointed out in my report last year, the small number of pupils at West and South Douglas could be brought to a central building at Douglas Center for less expense than is required to maintain those two schools.

The town can afford to erect a suitable building at this time, as it is being aided in its school expenditures very generously by the state. Last year, for instance, though \$24,000 was expended for school support, \$9,000 of this amount was received from the state.

RECENT SCHOOL LEGISLATION

Recent legislation which has become law, or is likely to become such, are bills for increasing the minimum of teachers' salaries one hundred and fifty dollars, which will not increase our expenses, as all our teachers are now receiving at least as much as this minimum salary, an act raising the tuition of state wards, which Douglas ought to benefit from, since nearly four hundred dollars was received for such tuition last year, a bill requiring the school census to be taken in September instead of in April as at present, and a bill compelling minors between the ages of fourteen and sixteen to obtain certificates in all employments as well as in connection with mercantile and manufacturing establishments, as at present.

Thanking the school committee for their co-operation and cordial support in all my work, this report is respectfully submitted,

C. L. JUDKINS,

Superintendent of Schools.

February 7, 1921.

Report of High School Principal.

To the Superintendent of Schools, Town of Douglas:

I herewith submit my third annual report of the Douglas High School.

The first notable feature of the high school at the beginning of the current school year was the increased enrolment, which was more than double that of last year. The total enrolment has been 29. Of these, three have left town, leaving a present membership of 26. This reduces the per capita cost of the high school to about half of what it was last year, so Douglas can no longer be accused of extravagance in maintaining a high school.

The increased enrolment throughout the grades, as well as in the high school this year, brought forcibly to mind two great needs in our school system, more room and another teacher for the grades.

The teacher hired for the 7th and 8th grades was confronted by over 50 pupils. The arithmetic of both these grades and the 8th grade geography and history were taken over by the high school teachers. But for the four high school classes and the two grades there are only three recitation rooms. One of the smallest of the high school classes recites in the little "office" room, and the typewriting class is forced out into the corridor. During two periods a day, 20 or 30 grade pupils invade the high school room for recitation, and the high school pupils have to leave the room for them.

Under these difficulties the problem of working out a program which would include the many different subjects demanded in well. The remaining $3\frac{1}{2}$ units might well be taken up, in part, by introducing the pupil to a seventh great field of human enterprise, the field of economics and business.

high school was a hard one. The problem was partly solved by combining the four high school English classes into two, and by the fortunate circumstance, rare in recent high school history, that all fourteen in the entering class agreed to take the same course.

This remarkable unity in the Freshman class is the second notable feature in the character of the high school of the present year. It was probably due to the campaign carried on last spring in the 8th grade. Every effort was then made to instruct and prepare the pupils of that grade for an intelligent choice of high school subjects. The slogan taken up was, "If you are not sure what to prepare for, prepare for college." This does not mean "take Latin." More and more college courses are being established that do not require Latin; but all require mathematics, and that begins with algebra. All fourteen in the entering class, therefore, not being sure of what to prepare for, took algebra, and are on the safe side if they decide later that they want to go to college or any other higher school; for even a business school prefers a boy or girl whose mental fibre has been toughened and developed by high school mathematics to one who has had only the business training that the small high school is able to give. Any who fail to become interested in mathematics during the first year have still three years to pursue other interests while those who succeed have the foundation for one of the most useful branches of learning, and also an indispensable aid in the still greater field of science.

The branches of learning long held to be fundamental in the high school curriculum are five in number, namely, English, mathematics, foreign languages, sciences, and history. Four years of daily recitations in English is now the universal requirement. At least two years with daily recitations should be spent in each of the other branches. These are the great fields wherein the world that we live in is revealed to the youth, wherein he learns how to equip himself for the further pursuit of culture, or for taking some part in carrying on the world's work in the professional or industrial pursuits, as his tastes may incline. To these branches a sixth is now added by a recent state law. Massachusetts state law now requires that every high school pupil shall spend at least a year in the study of civics and American history, with daily recitations, preferably in the Junior or Senior year. This brings into the high school very properly the work of preparation for the duties of American citizenship and the study of the problems of democracy. This makes up $12\frac{1}{2}$ of the 16 units of work that the average high school pupil is able to do

In view of the diversity of subjects required in the various fields named above and our limited accommodations, it is fortunate that during the present year there is so little demand for business subjects. Should there be more demand for such subjects in the future, there is likely to be a serious problem of administration to consider, as to the possibility of offering two high school courses that would be worth while. The introduction of domestic science and manual training and the new state requirements have limited to a considerable degree our room accommodations as well as the time and capacity of high school teachers.

The interest of the boys in manual training seems as keen as ever. Along the line of practical training, since the shop was opened, we have made six work benches of solid maple for the shop, seven chairs have been caned, and the boys are now working on book cases, magazine racks, music cabinets, etc.

Under Miss Hazel B. Hill of Milford, our domestic science teacher this year, the girls seem more interested than ever in the study of household arts. There is a larger high school class than usual in that subject this year, and Miss Hill teaches the subject to both the 7th and 8th grades. Miss Hill also teaches the 7th grade arithmetic, 8th grade geography and history, the Freshman and Sophomore English, and a small class of Junior and Senior girls in advanced Physiology, which these girls asked for in preparation for their chosen calling of Trained Nurse.

Miss Bartlett, the assistant principal, teaches the 8th grade arithmetic, two classes in French, Community Civics for the Freshman class, Ancient history, and typewriting, which last is the most popular high school subject this year, with 22 in the class.

Besides manual training the principal teaches algebra, a small class in bookkeeping, physics, Junior and Senior English, and the Junior and Senior American history and civics.

In the general effort to bring the school system to the highest possible efficiency, acknowledgment is due the grade teachers as well as the high school teachers for the excellent spirit of cooperation and good will shown in all situations where co-operation is essential in general management in order to put the maximum time into actual teaching.

Respectfully submitted,

C. W. HOLMES, *Principal.*

January 17, 1921.

Report of School Physician.

Mr. C. L. Judkins, Superintendent of Schools:

DEAR SIR:

Following is the report of medical inspection of school children for year 1920:

Pupils examined	374
Enlarged tonsils	76
Defective teeth	41
Adenoids	6
Vaccinated	76

All pupils attending school who had not been successfully vaccinated were vaccinated this year.

Respectfully submitted,

JOHN J. QUINN, *School Physician.*

February 10, 1921.

Report of Supervisor of Music.

Mr. C. L. Judkins, Supt. of Schools, Douglas, Mass.

DEAR SIR:

In submitting my first report as Supervisor of Music in the Douglas schools, let me state that it has been a pleasure to work with the teachers and pupils. I think that the results, as a whole have been most satisfactory, in spite of the fact that the music books are old and worn. We are now using the *Harmonie Readers* and I wish these might be replaced with the *New Educational Readers*.

In Douglas town, the children in Miss Anderson's room have done excellent work, mastering the simple problems in time and tune.

Faithful efforts to accomplish the required work are being made in Miss Smith's room, but due to the fact that there are so many grades, and that they have used the same music book year after year, progress on the part of the older ones has been hindered and the interest is lacking in a small degree.

The work in the primary grades consists of rote songs largely, together with ear training and simple staff notation. Much time is spent in securing a pleasing tone quality and vocalises are given to pupils throughout the grades.

Special attention is paid to the monotones and they are given individual help.

The Intermediate grades are singing music independently, mastering difficult problems in time and tune. Individual sight singing is being carried out and as a result I have been enabled to develop a seating plan in some of the rooms. The values gained from individual sight singing are: independence, concentration and self-control and habits of accuracy are established.

The pupils of the fifth grade are singing two-part songs and I hope to start this in the fourth grade soon. The manner in which the sixth grade is rendering three-part songs is very pleasing and most encouraging. Attention is called to marks of expression and interpretation.

The music in the grammar and the high school consists of chorus singing. Owing to a full program the amount of time given to the grammar school is slighted; therefore the results do not meet my expectations.

In closing I wish to express my sincere gratitude to the teachers for their willing and efficient co-operation individually and as a body, in making the music in the schools a success.

Respectfully submitted,

HELEN P. DUGUID.

Report of Instructor in Sewing.

Mr. C. L. Judkins, Supt. of Schools.

DEAR SIR:

The sewing class last summer numbered 39 at the beginning, 34 of whom finished the lessons. The older class numbered 6 and they made work-aprons, white skirts and bloomers, while the younger ones made towels, needle-books and white skirts.

The attendance was the best of any summer. Red ribbons were given for perfect attendance; blue for attention, and pink for good work.

An exhibition of the work was held in the school room of Grade II, Sept. 17th, at 3:15 p. m.

Respectfully submitted,

ETTA H. JOHNSON.

September, 1920.

Report of Drawing Supervisor.

Mr. C. L. Judkins, Supt. of Schools,

DEAR SIR:

At the writing of this report, I have taught drawing in the schools of Douglas and East Douglas barely four months. During this time, an attempt has been made to keep the work varied and interesting and to fit it into the work and significance of each season. It has included drawing, design, color, lettering and construction. Its aim has been to help give pupils ideas which later might be used in original expression.

Under drawing might be classed the nature work done in the fall and the landscapes and figures drawn by the primary grades. Design includes the various borders and the all-over designs which are really simple beginnings of wall-paper and cretonne designs. The color work, done in colored crayons and water color, has been the rudiments of scientific color study. One simple alphabet, capitals and small letters, has been given with an easy way in which the letters might be constructed. The work in construction has really been applied design, in which all the previous modes of work have been utilized. It includes place cards, candle shades, booklets calendars, match-scratchers, and simple ways of constructing "motifs" for design.

At the request of the principal, the principle of perspective is being taught in the high school. An attempt has been made to teach rather more perspective than is usually done in a high school. As the time is rather limited—one lesson every other week—little attention so far has been given to the art side of the subject. Students in schools above the high school find difficulty in mastering this subject, so the result, although not evidenced by finished drawings, is, considering the subject, fair.

In the grades, the results have been very gratifying, both from the standpoint of the interest shown by the pupils, and the work that has been accomplished.

I should like to take this opportunity to express my appreciation of the kindly interest and co-operation of the teachers, which has helped to raise the quality of the work.

Respectfully submitted,

ESTHER LUNDBERG.
